JULY BOAT BOOKS OF THE MONTH

Australia II – The Keel

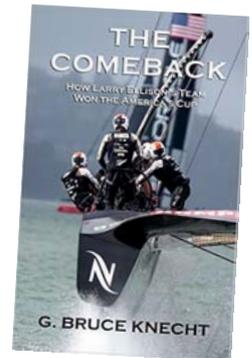

The 1983 America's Cup winner, Australia II was equipped with a radical, innovative, winged keel that caused much upheaval in the summer of 1983. This book tells the story of the author's role in the design of the keel of Australia II. The scientific approach by two Dutch scientists that were involved with the design research changed the landscape of yacht design.

The Comeback

Larry's Ellison's America's Cup team was down 1-8. New Zealand needed just one more win. Oracle ultimately beat back the odds in what's been called the greatest comeback in sport. But was it? G. Bruce Knecht set out to investigate how Oracle turned things around and, most particularly, the source of extra horsepower that seemed to come from nowhere during the final races. What he discovered was that the team was using a sailing technique that was prohibited under the rules.

NEW BOOKS

Heavy Weather Sailing (New Edition)

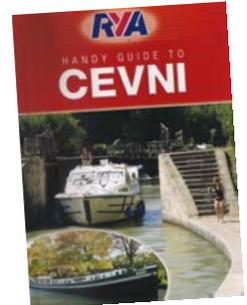

This is the seventh updated edition, it contains a wealth of expert advice from many of the great sailors of the present, including fresh accounts of yachts overtaken by extreme weather. The expert advice section has been updated and there has been a major update to the chapter focusing on the use of storm sails as well as to the use of drag devices. This is the definitive book for crews of any size contemplating voyages out of sight of land anywhere in the world, whether racing or cruising. It gives a clear message regarding the preparations required, and the tactics to consider when it comes on to blow

3815 \$70.95

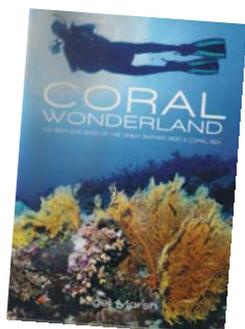

RYA - Handy Guide to CEVNI

If you are going cruising on the inland waterways of Europe then it is essential that you understand what you may see and hear while there. This handy guide is the perfect text to provide a quick-reference guide to the lights, shapes, sounds, and signs you may encounter.

RP0917 \$19.95

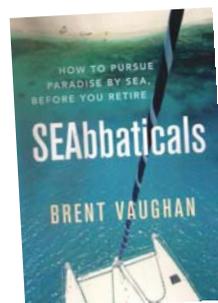

Coral Wonderland

This brilliant book provides detailed information on over 170 of the best dive sites, making Coral Wonderland an indispensable guide for the diver wanting to explore this World Heritage site. Travelling from north to south the book takes the reader to each part of the reef to discover the most iconic dive sites in each area. However, it doesn't stop there, as features are included on unique reef marine life, shipwrecks and even how to care for the reef.

1937 \$35.00

SEAbbatials

businesses and careers, to explore the world on their own SEAbbatial.

Traditional sabbatical leave by its very nature is designed to be thought-provoking and progressive. However a SEAbbatial takes this to a whole new level by taking you to the most remote locations that are virtually impossible to get to without a boat and takes you out of your comfort zone over the sea to prove just what you are capable of. Marine industry expert Brent Vaughan investigates how many of his customers have escaped the daily grind of well established

7553 \$24.95

Winning Isn't Luck

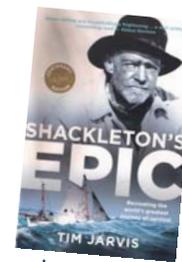

Whether racing dinghies or yachts, every sailor wants to drive through the fleet and cross the line first. In this groundbreaking book, international racer Fred Imhoff shows how to do just that. By means of on-the-water action shots and detailed commentary about a sailor's tactics, sail trim, helming, crew positioning and psychological attitude, Fred shares the secrets of competitive racing success.

9506 \$34.95

Shackleton's Epic PB

In 1916, a desperate Ernest Shackleton sailed across 1300 kms of hostile ocean in a tiny, leaking boat, then trekked across unmapped ice and snow to reach a rescue station. In 2012, British-Australian explorer Tim Jarvis set off to recreate Shackleton's Epic. It's been called the greatest survival story of all time. Moving between the past and the present, and combining a thrilling survival story with over 200 beautiful contemporary and historical photographs, this is a must-read book for all Shackleton fans and lovers of epic adventure

77544 \$29.95

NEW PRODUCT

SOS Electronic Distress Flare

Unlike traditional flares, this electronic flare never expires which solves the challenge of flare disposal. This floating electronic flare can be hand-held, tethered, or hoisted aloft. It runs up to 60 hours, unlike traditional flares which last minutes or less.

N850 \$199.00

Clear advantages are:

- Multiple use vs. single use
- Day and night use
- Includes daytime distress signal flag
- Can be sent easily vs. 'dangerous goods'
- Less risk of injury vs. potential for serious burns
- Won't set your boat on fire
- Floats with lens-up to optimise both the all-around horizontal and vertical light beams
- Family and boat SAFE – no flame!
- SIMPLE twist-on operation
- Visible up to 10 nautical miles
- Battery-operated (3 C-cell Alkaline)
- Made in U.S.A

* **Beware!** This does not replace pyro flares for the purpose of meeting safety regulations. Check local regulations for requirements.
